

EDUNOTIFY SYSTEM DEMO

1. FACULTY LOGIN

The screenshot shows a web browser window titled "Faculty Login | EduNotify". The page has a dark blue background. In the center, there is a white rounded rectangle containing the login form. At the top of this rectangle is a dark blue circle with the white text "EN". Below it, the text "Faculty Login" is displayed in a bold, dark blue font, followed by "EduNotify Telegram Alert System" in a smaller, lighter blue font. The login form consists of two dark blue input fields: the first is labeled "faculty" and the second contains four dots, indicating a password field. Below these fields is a dark blue button with the white text "Login". At the bottom of the white rectangle, the text "Secure Faculty Access Only" is displayed in a small, light blue font.

2. TELEGRAM LINKING DASHBOARD

The screenshot shows a web browser window titled "Telegram Student Linking | EduNotify". The page has a light gray background. At the top, there is a header section with the title "Telegram Student Linking" in a bold, dark blue font. To the right of the title are three dark blue buttons: "Send Message", "History", and "Logout". Below the title, there is a sub-header section with the text "Send each unlinked student a personal email containing their secure Telegram connection link." Below this text, there is a "Select Batch:" label followed by a dropdown menu showing "-- Select Batch --" and a "Refresh Status" button. Below the sub-header section is a table with the following columns: "Student Name", "Mobile Number", "Email", "Telegram Status", and "Action". The table is currently empty, showing only the header row.

Student Name	Mobile Number	Email	Telegram Status	Action
--------------	---------------	-------	-----------------	--------

3. LINK EMAIL SEND

Telegram Student Linking | EduNotify

Telegram Student Linking

Send Message

History

Logout

Send each unlinked student a personal email containing their secure Telegram connection link.
